Visit with a doctor for common health conditions

Doctors that you see online can help you with common conditions such as the flu, a cold, fever, and rashes. Doctors are available 24/7 with no appointments or long wait times. During an online video visit, doctors can assess your condition, give medical advice, and send prescriptions to the pharmacy of your choice, if needed.¹

Connect with mental health support from home

If you're feeling anxious, depressed, or having trouble coping with problems at home or at work, you can talk with a therapist online. In most cases, you can set up a secure visit seven days a week.² You can also schedule a visit with a psychiatrist for support on managing your medication.³
