

Introducing MySmile Cost Genie

MySmile Cost GenieSM is an easy-to-use, secure tool that gives you personalized out-of-pocket cost estimates for a wide range of dental treatments based on your benefits and choice of dentist.

Use Cost Genie for any family member covered under your plan. It remembers dentists you've visited and gives you the option to select other in-network dentists. Plus, it offers helpful descriptions to make treatment selection easy.

To access Cost Genie, visit DeltaDentalWA.com and create or login to your secure MySmile[®] personal benefits center account.

After you've logged in, select "Estimate Your Costs" on the left side of the screen. Use the Cost Genie's drop down menus to select the patient, dentist, and treatment. Then click "Get Your Estimate." It's that simple!

Cost Genie provides out-of-pocket estimates for in-network dentists in Washington State. If you see a dentist who's out-of-state, not in our network, or your smile needs extensive treatment, you can get a precise, customized estimate by asking your dentist to submit a Predetermination. Once submitted, you'll receive a Confirmation of Treatment and Costs detailing your dentist's treatment plan, what your benefits pay, and your estimated out-of-pocket expense.

Take the guesswork and surprise out of your next dental visit with MySmile Cost Genie.
