

2022 Essentials Drug List

The Essentials Drug List keeps your pharmacy costs as low as possible by focusing on high-value drugs that are approved by the U.S. Food and Drug Administration (FDA). As a result, some drugs are not covered by the pharmacy plan. These include:

- Low-value, high-cost drugs
- Drugs with lower-cost, over-the-counter alternatives
- Drugs sold at inflated prices

All excluded drugs have a therapeutic alternative. Talk with your doctor about what is right for you. In some cases, a non-prescription, over-the-counter (OTC) form of the drug may be a good choice. Please note that OTC drugs are not covered.

This list is subject to change.

If your drug is not on this list, search for it at premera.com:

- Scroll down to Pharmacy
- Under Pharmacy, select Covered Drugs
- Scroll down and click on E1/E4
- Search for your drug
- If EX appears in the Drug Tier column next to your drug, the drug is excluded. Consult your doctor or pharmacist to find an alternative drug that is covered by your plan.
