

SURPRISES ARE FOR BIRTHDAYS, NOT MEDICATION COSTS.

Find out before you fill with the Price a Medication feature on the myCigna App.

When it comes to medication costs, nobody likes surprises. That's why Cigna created the Price a Medication feature on the myCigna® App. Right from your phone, you can easily look up medications to compare prices before you get to the pharmacy counter – or, even before you leave the doctor's office.

The Price a Medication feature on the myCigna App lets you:

- › Compare prices across pharmacies in your area, as well as Cigna Home Delivery Pharmacy^{SM*}
- › View costs for 30-day and 90-day supplies, depending on what your plan covers
- › Find out right away if a medication needs approval before your plan will cover it
- › Get alerts if your plan doesn't cover your medication and view covered alternatives, if available

Why it matters.

Did you know medications can cost more or less depending on which pharmacy you choose?

When you and your doctor know how much your medications will cost and possible alternatives, you avoid surprises at the pharmacy - and even save money.

Use the Price a Medication feature on the myCigna App today.**

Together, all the way.®

* Prices are not guaranteed. Your costs and coverage may vary at the time you fill your prescription at the pharmacy and pricing at individual pharmacies may vary. Coverage and pricing terms are subject to change. Not all plans include Cigna Home Delivery Pharmacy. Review your plan documents for cost and coverage details.

** The downloading and use of the myCigna App is subject to the terms and conditions of the App and the online stores from which it is downloaded. Standard mobile phone carrier and data usage charges apply.
