

OPEN ENROLLMENT INFORMATION

Open enrollment is your annual opportunity to review your benefits and decide whether you need to update any of your elections. Any changes made at open enrollment are effective for the entire 2020/2021 benefits plan year. November is the open enrollment period. New enrollment or changes to existing enrollment will be effective December 1, 2020.

In most cases, once you have made your benefit elections for the plan year, you cannot change them until the next annual open enrollment period, unless you experience a permitted election change event. You must notify Human Resources within 30 days of the event (60 days in the case of birth or adoption). For more information about making mid-year changes to your benefit elections, please contact Human Resources or refer to the "Important Information" section in your enrollment guide.
